Abstract: ***'Women' this word is itself beautiful. Women the word is sound of silence. Woman is a mother, a baby, a sister, a wife, a friend, a love and she is many to us. In reality women are compared with beautiful flowers it means as they are sensitive such as flowers. But such women are treated in the society as second class citizens. Comparative to the olden days, in the present day's women are not receiving the prominence and there are no ethical values to the human beings. Instead of giving honor and respect they are ill-treated and humiliated. They get inequality and in justification in the society. Women harassed, teased, groped, sexually embarrassed, brutally beaten everywhere in the world. At offices they are oppressed, and at home they are suppressed. In the colleges they are teased sexually. In the travelling, women are groped publicly. Women are feeling depressed lack of safety and security even with their own family members. It is felt that, where they are safe is in mother's womb and in the burial ground. May be in the burial ground also we can't say exactly, because there are some incidents which took place that some men raped the dead bodies of women by taking them from coffins and most frightened thing is in one place few men raped seven dead bodies of pregnant women. These are the women crisis in the present scenario.***
Key words: harassed, teased sexually, suppressed, injustice, inequality and oppressed lack of safety and security.

I. INTRODUCTION

According to Bible the woman has created as mentioned below.

A. The Creation of Woman

21So the LORD God caused a deep sleep to fall upon the man, and he slept; then He took one of his ribs and closed up the flesh at that place. 22 The Lord God fashioned into a woman the rib which he had taken from the man and brought her to the man. 23The man said, "This is now bone of my bones, and flesh of my flesh; She shall be called Woman, because she was taken out of Man."… New American Standard Bible As per the Bible it is told that the following conversation took place between God and Angle. When God created woman he was working later on the 6th day. An angel came by and said: "Why spend so much time on that one?"And the Lord answered: "Have you seen all the specifications I have to meet to shape her? She must be washable, but not made of plastic, have more than 200 moving parts which all must be replaceable and she must function on all kinds of food, she can embrace several kids at the same time, give a hug that can heal anything from a bruised knee to a broken heart and she must do all this with two hands." The angel was impressed. "Just two hands...impossible! And this is the standard model? Too much work for one day...wait until tomorrow and then complete her." "I will not", said the Lord. "I am so close to completing this creation, which will be the favorite of my heart. She cures herself when sick and she can work 18 hours a day." Then the angel came nearer and touched the woman. "The Angle exclaimed! But you have made her so soft, Lord." Even though "She is soft", said the Lord, "But I have also made her strong. You can't imagine what she can endure and overcome." "Can she think?" the angel asked. The Lord answered: "Not only she can think, she can reason and negotiate."The angel touched the woman's cheek. "Lord, it seems this creation is leaking! You have put too many burdens on her.""She is not leaking...it's a tear" the Lord corrected the angel."What's it for?" asked the angel. And the Lord said, "Tears are her way of expressing grief, her doubts, her love, her loneliness, her suffering and her pride."This made a big impression on the angel; "Lord, you are genius. You thought of everything. The woman is indeed marvelous!" "Indeed she is! Woman has strengths that amaze man. She can handle troubles, sorrows and carry heavy burdens. She holds happiness, love, emotions and opinions. She smiles when feeling like screaming! She sings when she feels like crying, cries. When she is happy and laughs when she is afraid, she fights for what she believes in. Stands up against injustice. She doesn't take "no" for an answer, when she can see a better solution. She gives herself, so her family can thrive. She takes her friends to the doctor

if she is afraid. Her love is unconditional. She cries when her kids are victorious. She is happy when her friends do well. She is delighted when she hears of a birth or a wedding. Her heart is broken when a next of kin or friend dies. But she finds the strength to get on with life. She knows that a kiss and a hug can heal a broken heart.

There is only one thing wrong with her "SHE FORGETS WHAT SHE IS WORTH."

Women struggles from mother's Womb:

The woman is getting struggle when she is inside of her mother's womb. There onwards woman harassment is started. A man dominates woman not to give birth to the girl child and asks the woman to kill the baby without emerging into this world by doing female infanticide. How pain it is to a mother to kill her baby by cutting the baby into part by part inside of mother's womb. Is it not adequate for a woman to envisage the hell here itself. Either she can't decline and struggle against the husband or she cannot allow t kill her baby by herself. It is projected that India has one of the highest female infanticide incidents in the world.

According to Statics the female child population in the age group of 0-6 years declined from 78.83 million in 2001 to 75.84 million in 2011. During the period 1991-2011, the child sex ratio (0-6 years) declined from 945 to 914. According to the Population Research Institute, at least 12,771,043 sex-selective abortions had taken place in India between 2000 and 2014. It takes the daily average of sex-selective abortion to 2,332. Recently the Indian government has taken initiation and trying to implement in a bid to encourage families to have girl children, prevent female feticides and educate the girl child, the government launched Beti Bachao, Beti Padhao campaign in January 2015. It also launched several conditional cash transfer schemes such as Balika Samriddhi Yojana and Dhanalakshmi Scheme. It is little better to encourage families to have girl child.

This is first stepping that where women are not treated equal as men. While providing education also there are so many restrictions to the women in the society. The woman won't get equal opportunity to get education like boy child as they wish. The prenatal psychology is different here while providing education to the girl child they won't provide according to the wish of the girl child because any one day she has to go to others house so if they provide higher education they have to be given higher dowry to the bridegroom in future. Having this concept many parents are not providing or treating women equal to men. They are restricted not to go faraway places to study so in this case we are losing much talented people in our country and throughout the world. For instance, if we take Kalpana Chawla, if she couldn't allow going faraway places to study we wouldn't get as the first woman astronaut. In recent times it is little better educated people are allowing woman to get higher education along with boys.

B. Sexual Harassment in Educational Institutions

In this 21st century it has been increased harassing sexually in educational institutions by classmates and so called teaching faculty and Non-teaching staff also. Whom they consider as their parents, they are misbehaving with them in the laboratories and in classrooms, wherever there is a scope for them and in private chambers of faculty. Classmates are also cheating them in the name of friendship. Whom should they trust and believe. From school level onwards up to completion of their education women are crossing or moving under the lustful eyes. Even in the universities also same cases taking place to award higher degrees many Professors are asking directly or indirectly the women to have sex with them. Women are not safe in this present situation they are suffering a lot by this kind of sexual harassments in the educational institutions.

C. Sexual Harassment at the Level of Teenage

Sometimes boon becomes bane when we talk about women, it means when we treat their beauty as boon it brings them bane as we can call it curse. when beautiful women would like to come out it is very hard for them to survive in the society because teenagers or men whomever theymay be, they are going to make comment on their beauty. Some are going to further extend to attack on them with acid if they reject their love or lustful proposal of them. There are many acid cases took place in the society but there is no justification has been done for the women so far.

D. Lack of Safe and Security with Family Members

In this Kaliyuga human beings are forgetting or neglecting the values and ethics because most of the women are sexually harassed by their family members. In recent times many cases are there where one woman brutally harassed by her husband, another girl who

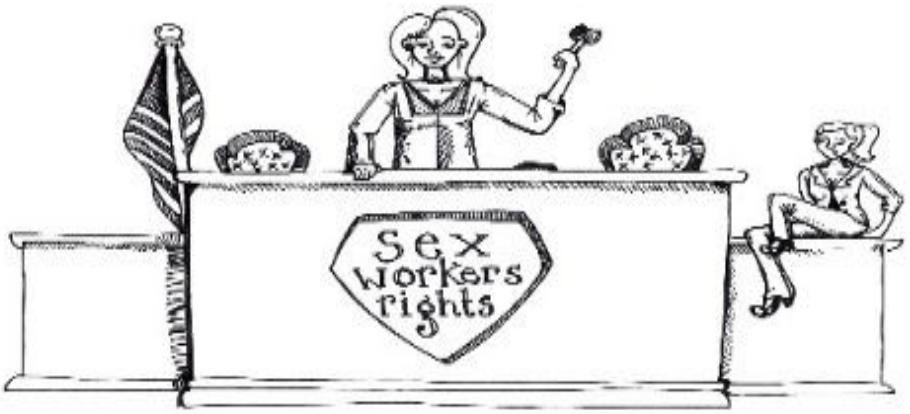
©IJRASET (UGC Approved Journal): All Rights are Reserved

sexually forced by her brother or cousin. It is worst thing that ever happen in future also a daughter is sexually forced and used for years together as sexual toy by her father. We have so many cases are like where one cousin forcing his sister to have sex with him. To safeguard or not to get dishonor to their family in the society many girls are controlling even after receiving this kind incidents.

E. Harassment after Getting Marriage

Women after getting marriage they are suppressed by their husbands, mother –in –laws and sister-in laws to get more dowry. Even in the 21st century dowry killings are taking place. Many women are harassed by their mother in laws brutally to get additional dowry. It is taking place more in NRI cases and the rules are not making any justice for these women. Even in some cases they are killingthe bride for more dowryin greedy of money. Shamelessly many bureaucratese and politicians are implementing this dowry system in India even in this present era. First of all, rule makers are breaking rules. This is a pathetic situation in India.

F. Problems of Women Who Struck in Prostitution



In the society women are purchased, as we are purchasing goods in the market. This is worst case it should not be taken place at least in future. Women are being in this field lack of employment or financial support most of them are trapped in Prostitution field. Those who are in Prostitution they are brutally facing sexual harassment. They can't express their grief with anybody because men are treating women as sex toys. Most of the women are not being with whole heartedly in this field, as situations dragged them or relatives left them in such fields. So, they can't complain against men who are brutally harassing them, while having sex some men are torturing women, with burning cigarettes, some are forcing to have alcohol and some are going to make cuts and wounds few are going to use abused words and make them feel hurt. The field in which they are that is illegal so they can't complain against them. Even if they go to police station they are going to be harassed by cops also. In each and everywhere women getting troubled, there is no solace for them to be comfort. Ultimately sex workers have to get license or government should provide them employment by making a special scheme for them. Alcohol Consumption: Alcohol availability in the society and availability without restrictions for all age groups also causing a major issue. Most of the lives of women are dried out by having husbands as sobers. What they earned they are spending by evening for drinking purpose then how women lives can be changed. Government is asking don't drink but they are giving licenses more and more. When governments put ban on alcohol then only there would be a chance to get change among the lives of most of the women.

II. CONCLUSION

In this paper it is expressed how and where women are ill treated and humiliated. It is very sad to say that in this present 21st century many sexual harassments and rapes have been taking place because of lack of or by ignoring human values and ethics. Man is behaving like a wild animal which doesn't possess certain rules and ethics. But we have certain rules and ethics to be followed according to law. But no one bothers about the law and its punishments. Unless the law makes its punishments severe we can't control unwanted incidents not to happen in the society. It is time to give counseling to each and every boy by his mother that he came from same woman. Due to technology development also it is increasing day by day. Parents should be aware of their children activities and punishments that are committing sexual harassments or misbehaving with women irrespectively. We have respect women and provide safe and security. It is government's responsibility too. After launching Nirbhya act this kind of cases have been taking place more and more. In recent times Honor killings are also increasing gradually in the society. For all these incidents only one solution that is implementing law and order very strictly without showing mercy on accusers. When law and order makes its duty sincerely then there would be a possibility to get some change in the society. Here each and everybody's responsibility is there to think about women crisis. If we won't control all these kind of activities we wouldn't have women in the society. In addition to all the government should declare a scheme by providing free education up to Ph. D without charging anything from the girl child parents. By providing special schemes and implementing strict law and order we can provide women safe and secure life.
