Abstract: ***Astrology is a divine, ancient and very ancient art. This astrological art is based on the movements of the sun, moon and all kinds of planets, and is an advanced phenomenon based on the properties of the stars in outer space. In ancient times kings were well versed in medicine and astrology. Astrologers and physicians were regularly featured in the royal court. Star, Thithi etc. were also seen for surgical treatment. In this, the astrologers were the ones who handled the medicine very well. Based on this, they predicted the harm to the country, knew the disease coming through it and treated the medical system accordingly. This study, entitled 'Diabetes in Medical Astrology', provides a comprehensive overview of the patients being treated for diabetes in hospitals and the medications available and the purpose of this study is to find out the horoscopes of the planets that cause their diseases by getting their horoscopes, and how astrology and the structure of the planets can help them to know who will be affected by diabetes in the future and how to protect themselves from it.***
Keywords: Thithi, Dasa, Buddhi, Andara Nathan.
