Astrological medicine has been practiced by its practitioners as a way to synthesize the core elements of knowledge of astrology, medical practice, and medical knowledge. The common saying is, "Life without disease is life without wealth." On this basis, no matter how much wealth one has, it is a wealth that will last forever in one's life without disease. Nature has shown us in many ways that every living thing is unique. Although everyone in a family has been following the same diet for many generations, not everyone in the family gets the same disease. This does not mean that diet alone is the root cause of diabetes.
